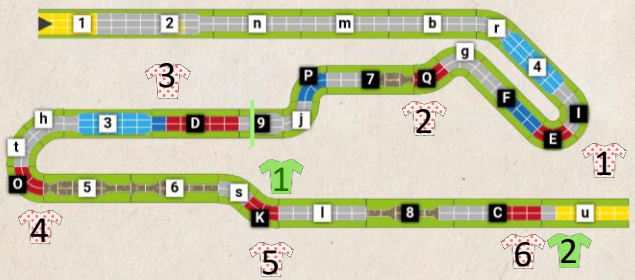
Bretagne Classic

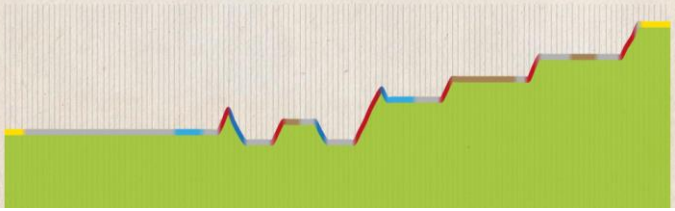
114

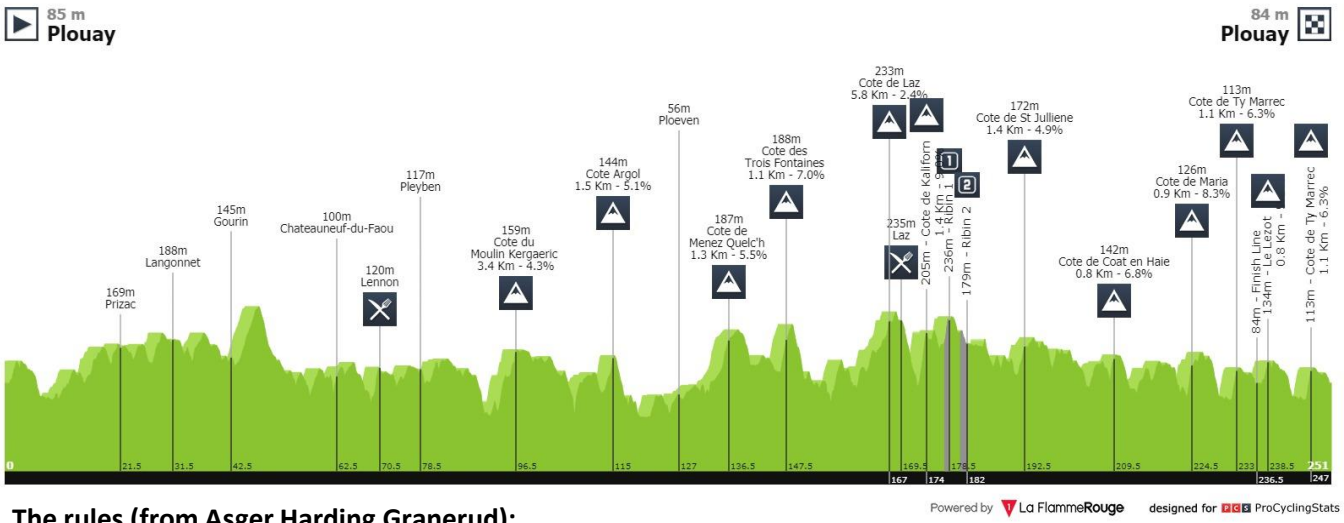


Setup :

1 2 n m b r 4 I E F g Q 7 P j 9 D 3 h t O 5 6 s K l 8 C u

Profil de l'étape :





The rules (from Asger Harding Granerud):

1) The race is roughly 2/3 longer than normal and uses all tiles from Peloton and base game.
2) All sprinters take an extra 5 into their deck.
3) To accommodate the extra length, the following rules apply:
At the end of the round where the first player enters into, or passes by, tile no. 3 a special “recovery phase” is taken before the next turn proceeds as normal.
All players go through their discard and return up to 2 cards of each energy value except exhaustion and reshuffle all their remaining cards.

Example if a rider has discarded two 4s, they now take both back. If they had discarded three 4s, they take two back. If only one 4 had been played, it is taken back.
All cards taken back are added to your recycled cards, and then the whole deck of energy cards is shuffled and made ready, without any cards in the recycle.
